

NGUYEN DUONG TIEN PHAT

Front-end Developer

(+84) 96-225-8348 - phatndt268@gmail.com - [Github](#) - [LinkedIn](#)

SUMMARY

Frontend Developer with 2+ years of experience building scalable, high-performance, and user-focused web applications. While my primary expertise is in frontend development, I also have hands-on experience with backend development and am continuously expanding my skills. My long-term goal is to grow into a Full Stack Engineer and contribute to building reliable, scalable, and impactful software.

EXPERIENCES

03/25 - Present • Frontend Developer - Modelty Strategy & Consulting

- Developed features for an insurance service platform using **Next.js**, **Gatsby**, **Tailwind CSS**, **Styled Components**, and **Material UI**.
 - Developed high-conversion marketing and product pages, optimizing performance and SEO for insurance campaigns.
 - Implemented user journeys including insurance quotation, purchase, and claim submission flows.
 - Built and deployed an **Alipay Mini Program**, adapting business workflows and UI components to fit the platform's ecosystem.
 - Worked closely with backend services to integrate APIs, handle authentication, manage data flow, and ensure system reliability.
 - Improved code structure, reusability, and performance to maintain a clean and scalable frontend codebase.
-

05/24 - 01/26 • Frontend Developer - Freelance

- Migrated an e-commerce system management application using **NextJS**, **Tailwind CSS** and **Ant Design**, creating a more user-friendly interface.
 - Ensured system flow compatibility with the existing website during the migration.
 - Implemented new features and updates to the application based on project requirements.
 - Collaborating with the team lead to improve the UI design based on feedback.
 - Participated in code reviews, providing valuable insights that led to fewer bugs and higher quality code.
 - Facilitated weekly meetings to report project progress and brainstorm application improvements.
-

10/23 - 01/24 • Frontend Intern - TMA Solutions

- Developed a tour app using **ReactJS** and **MUI** according to the figma design
 - Implemented application logic and user interface based on analyzed requirements and provided feedback on design and functionality.
 - Maintained daily communication with mentor through progress reports.
-
